AIMS

Project aims to enhance river-based green infrastructure by:

- 1) integrating ecosystem and landscape concepts in to the planning and
- 2) integrated management of the lowland rivers at local and regional scale.

Project conceptual framework

PATH TO REACH THE AIMS

This will be achieved by:

- 1) strengthening cooperation between public authorities and stakeholders and
- 2) supporting local and regional authorities with know-how by implementing measures and practices to enhance river based green infrastructure.

ACTIVITIES

Capacity building activities:

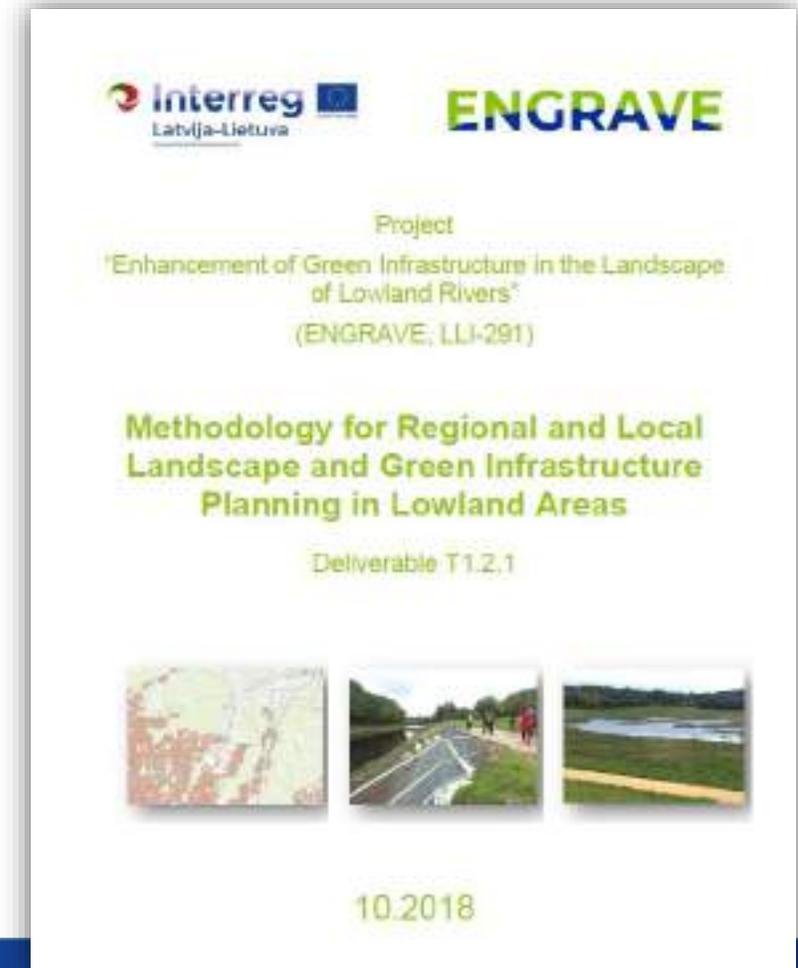

- ✓ Study visit to the United Kingdom;
- ✓ Training on how to integrate nature conservation aspects into landscape planning and planning of green infrastructure in Biržai;
- ✓ Cross-border workshop “Landscape planning: integration of ecological, social, cultural and economic aspects” Bauska and Rundāle.

ACTIVITIES

- ❑ Panel discussions (4) with stakeholders on landscape and green infrastructure planning and management.

- ❑ Elaboration of Methodology
