Protected Nature Areas of Latvia

Specially protected nature areas are **geographical territories, that are under special state-level protection**, in order to safeguard and maintain biodiversity of nature – rare and typical ecosystems, habitats for rare species, landscapes, that are peculiar, beautiful and characteristic for Latvia, geological and geomorphological formations, as well as territories, significant for recreational and educational purposes.

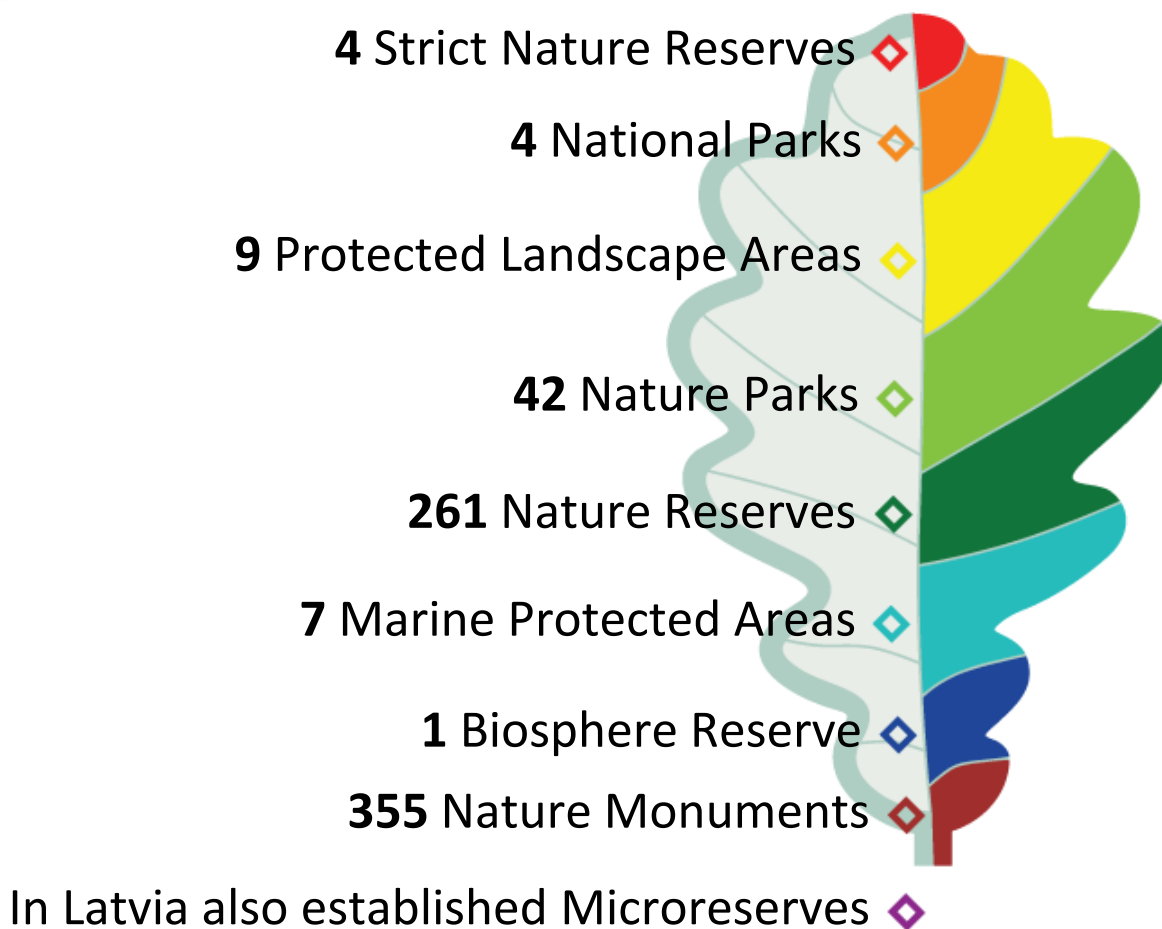

Altogether in Latvia there are 683 specially protected nature areas certified by law or regulations of the Cabinet of Ministers.
